SCHOOL OF MEDICINE

The University of Georgia School of Medicine is UGA's next great leap forward — an unprecedented commitment by our state's flagship institution to improve the health of all Georgians. We will address Georgia's critical need for physicians, keep talented medical students in our state, and leverage our robust biomedical research enterprise to expand the world's understanding of human health.

Your support can help us achieve these goals, and our most committed donors will have the opportunity to join their legacy to this milestone moment in UGA's history.

Gifts that meet the thresholds listed here are eligible to be named by the donor. Pending UGA Cabinet approval — or USG Board of Regents approval, for the building naming — the name of your family, organization, loved one, or self will become part of the UGA School of Medicine. In so doing, you not only etch that name into UGA's history, but you provide a lasting reminder to generations of students of the support that surrounds them — the commitment not just of UGA but of the UGA family.

Contributors of \$50,000 or more will be prominently recognized on a permanent fixture in a common area within the new School of Medicine Building.

Image is a mock-up of donor recognition space and is not a final design.

Naming opportunities

Medical building	\$25M
Biomedical research suite	\$5M
Anatomy lab	\$2M
Simulation center	\$2M
Active learning classroom (2)	\$2M
Clinical skills center	\$2M
Learning commons	\$1M
Multi-purpose skills lab	\$1M
Patient training room	\$1M
Library/learning resource room	\$250K
Simulation bay (9)	\$250K
Large conference room	\$250K
Biomedical research bench (6)	\$100K
Clinical skills room (29)	\$100K
